Good to know...

In Thomas Mann's wonderful „Buddenbrooks“, this great sentence can be found: **„Enjoy doing business during the day, but only the kind of business that allows you to sleep peacefully at night“**. We are privileged to have settled in this business in such a way that we can definitely nod our heads to this quote. In the last 25 years, we have grown from two people with the PoPoLiNi® - idea in our dreaming heads into a great team of enthusiasts, thinkers, creatives, baby-and children loving eco-freaks. Together we share the vision of our brands PoPoLiNi® & iobio™: a protected and natural childhood. We want to ensure that our partners and customers as well as we can profit from our company's high ideals. Only if we stay true to those ideals, we can develop something useful and wonderful. This way we can guarantee fair, environmentally friendly way of developing useful items for babies and children. So you - and we too! - can really have a good conscience!

Sigrid and Gerhard Feyferlik

Gut zu wissen...

In Thomas Manns wunderbaren „Buddenbrooks“ findet sich der schöne Satz: **„Sei am Tage mit Lust bei den Geschäften, aber mache nur solche, dass du des Nachts ruhig schlafen kannst.“**. Wir haben das Privileg, uns in dieser Branche so eingelebt zu haben, dass wir diesen Satz mit einem entschiedenen Kopfnicken quittieren können. Seit wir vor über 25 Jahren zu zweit das filigrane Netz der PoPoLiNi®- Idee gesponnen haben sind wir zu einem beachtlichen Fix-Team von Enthusiasten, Tüftlern, Kreativen, Baby-und Kinderliebhabern, Öko-Spinnern und insgesamt sehr liebenswürdigen Chaoten herangewachsen. Zusammen leben wir durch unsere beiden Marken PoPoLiNi® und iobio™ die geteilte Vision einer natürlichen und behüteten Kindheit. Davon profitieren sowohl unsere Partner und Kunden als auch wir selbst! Nur wenn wir überzeugt von unseren Ideen sind, werden sie zu Nützlichem, und nur dann bewahrt sich unser Anspruch an uns selber: auf faire, umweltfreundliche Art praktische Baby- und Kleinkindausstattung zu entwickeln und produzieren - damit dürfen Sie - und wir auch! - wirklich ein gutes Gewissen haben!

Sigrid und Gerhard Feyferlik

Buono a sapersi...

Nel fantastico libro “Buddenbrooks” di Thomas Mann vi è la frase meravigliosa **“divertiti pure a fare buoni affari di giorno, ma soli quelli che ti lasciano dormire di notte”**. Abbiamo il privilegio di essere cresciuti talmente bene in questo business, che possiamo riconoscere questa frase annuendo. Dal momento in cui 25 anni fa, noi due, abbiamo iniziato a creare la rete filigrana di PoPoLiNi®, siamo cresciuti e diventati una notevole squadra di appassionati, pensatori, creativi, amanti di bebè e bambini ed “eco-filatori”. Insieme viviamo attraverso i nostri due marchi PoPoLiNi® ed iobio™ una visione condivisa di un'infanzia naturale e sicura. Questa ha dei vantaggi sia per i nostri partner che per i clienti, così come anche per noi stessi! Solo quando siamo davvero convinti delle nostre idee, queste diventano utili e si materializzano nella nostra affermazione: sviluppare e produrre abbigliamento e accessori pratici per neonati e bambini in modo equo, rispettando l'ambiente; tutto ciò in modo da poter avere la coscienza davvero pulita, sia noi che voi!

Sigrid e Gerhard Feyferlik

Bon à savoir...

Dans le livre fantastique “Buddenbrook” par Thomas Mann, il y a la merveilleuse phrase **“aimait faire de bonnes affaires par jour, mais seulement ceux qui vous permettent de dormir la nuit.”** Nous sommes privilégiés d'avoir grandi si bien dans ces affaires, que nous pouvons reconnaître cette phrase hochant la tête. Dès le moment où il y a 25 ans que nous deux avons commencé à créer le réseau filigrané de PoPoLiNi®, nous avons grandi et est devenu une grande équipe de passionnés, penseurs, créatifs, amoureux des bébés et des enfants comme «éco-spinners”. Ensemble, nous vivons à travers nos deux marques PoPoLiNi® et iobio™ d'une vision partagée de l'enfance naturelle et sûre. Cela présente des avantages tant pour nos partenaires et clients, ainsi que pour nous-mêmes! Seulement quand nous sommes vraiment convaincus de nos idées, ils deviennent utiles et se concrétisent dans notre déclaration: développer et produire des vêtements et des accessoires pratiques pour les bébés et les enfants d'une manière équitable, en respectant l'environnement; Tout cela dans le but d'avoir une conscience très claire, nous et vous aussi bien!

About Our Production.....	71
---------------------------	----

... simple and convenient:

Wash our nappies in the machine without ironing.

... cosy and comfortable:

Natural and breathable material, cooler in summer, ideal hip support.

... wide range:

From normal squares to conveniently fitted nappies, we have the right nappy.

... durability:

Treated with care our nappies last 200 washings and will fit until toilet trained.

... big savings:

Including care, the savings with cloth nappies will be 50-70% compared to throw away nappies.

... better for the environment:

One ton or a mountain of 4000 nappies will not end up in landfills or incineration. Astonishing how easy it is to care for the environment.

... einfach und praktisch:

Unsere Windeln werden einfach in der Maschine gewaschen. Sie sind pflegeleicht und müssen nicht gebügelt werden.

... ihr Baby fühlt sich rundum wohl:

Natürliche und atmungsaktive Materialien, daher weniger Hitzeentwicklung im Sommer, schön breit gewickelte Babys.

... große Auswahl:

Von den herkömmlichen Mullwindeln bis zur praktischen Höschenwindel - wir haben immer die richtige Windel parat.

... strapazierfähig:

Bei sorgsamer Pflege bis zu 200 Wäschen stark, 20 Windeln reichen daher bis zum Sauberwerden.

... eine Menge Geld gespart:

Waschen und Pflege mitgerechnet sparen Sie mit Stoffwindeln 50-70% der Kosten von Wegwerfwindeln.

... für unsere Umwelt günstiger:

Eine Tonne Windelmüll pro Baby oder 5-8% Restmüll weniger. Erstaunlich wie einfach es ist, die Umwelt zu entlasten.

... semplice e pratico:

I nostri pannolini non devono essere lavati separatamente, né devono essere stirati.

... confortevole ed ideale per i bambini:

I nostri prodotti sono fatti con materiali naturali e traspiranti, rinfrescanti in estate e favoriscono la naturale postura dei neonati con le anche divaricate, favorendo il salutare sviluppo delle articolazioni.

... offre una vasta gamma di prodotti:

Dai ciripà normali ai pannolini moderni con design funzionali, abbiamo sempre il pannolino giusto per ogni bambino e per ogni preferenza.

... dura nel tempo:

Trattati con cura i nostri prodotti durano fino a 200 lavaggi, affidabili finché i bambini non dicono addio al pannolino.

... garantisce un grande risparmio:

Rispetto ai pannolini usa e getta, i pannolini lavabili permettono un risparmio del 50 - 70 % dei costi totali, comprese le cure di lavaggio.

... rispetta l'ambiente:

Una tonnellata o una montagna di 4000 pannolini non finiranno in discarica grazie all'uso dei pannolini lavabili. Sorprendente quanto sia facile prendere cura dell'ambiente e contribuire in modo decisivo alla riduzione dei rifiuti.

... facile à l'emploi:

Nos couches sont lavables en machine et ne nécessitent pas de repassage.

... confortable et idéale pour le bébé:

Nos couches sont fabriquées avec des tissus naturels et respirant. Elles sont plus fraîches en été et s'adaptent parfaitement à la position des jambes écartées et fléchies des bébés.

... un large choix:

La grande variété de nos modèles permet de satisfaire l'ensemble de vos exigences.

... durable:

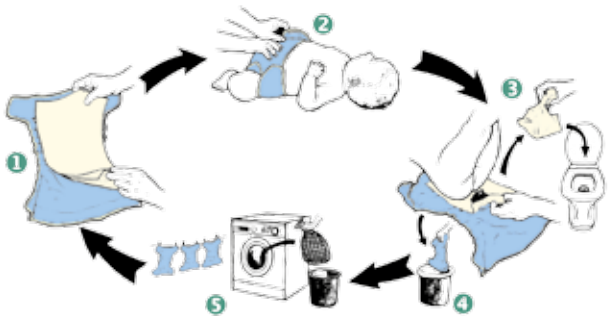

En suivant nos recommandations d'entretien, nos produits résistent jusqu'à 200 lavages. Les couches peuvent donc durer jusqu'à l'apprentissage de la propreté de votre enfant.

... économique:

L'utilisation de couches lavables permet de réaliser de 50 à 70% d'économie par rapport aux couches à usage unique.

... respectueux de l'environnement:

Un enfant aura besoin de près de 4000 couches, ce qui représente environ 1 tonne de déchets. Les couches lavables contribuent donc de manière non négligeable à la préservation de notre environnement.

Nappy Free

With close observation, parents will get to know the natural rhythm and hold their babies over a toilet, potty or lavatory in time.

Windelfrei

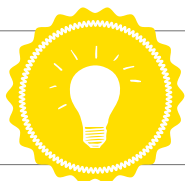

Durch gute Beobachtung lernen Eltern die natürlichen Bedürfnisse ihres Babys kennen und reagieren rasch, um das Baby über Waschbecken, Toilette oder Töpfchen „abzuhalten“.

Senza Pannolino

Imparando a riconoscere i segnali “di bisogno” del bebè ed estraendo prontamente il vasi- no all’occorrenza.

Sans Couches

En observant attentivement, les parents apprennent à connaître les besoins de leur bébé et à répondre aux premiers signes de faire ses besoins en le plaçant au-dessus de ses toilettes ou de son pot.

WASHABLE WOOL

High Tech made by Nature - LAVALAN®

80% Wool, 20% Ingeo™
Natural - Comfortable - Washable

Our high quality filling material lavalan® is made of 80% pure wool and 20% PLA, a biopolymer made of corn starch. The material has been tested according to Oeko-Tex Standard 100 class 1 (baby and toddler). It is 100% biodegradable, stable in shape, breathable and hygienic and above all washable at 40°. It provides a healthy and natural sleeping comfort.

80% Schurwolle, 20% Ingeo™
Natürlich - wohltuend - waschbar

Das hochwertige Füllvlies lavalan® besteht aus 80% reiner Schurwolle und 20% PLA, einem Biopolymer aus Maisstärke. Das Material ist schadstoffgeprüft gemäß Oeko-Tex Standard 100 Klasse 1 (Baby und Kleinkind), formstabil, atmungsaktiv, hygienisch - und vor allem waschbar (bei 40°). So sorgt es für ein natürliches und gesundes Schlafklima.

80% lana, 20% Ingeo™
Naturale - confortevole - lavabile

Il nostro materiale di imbottitura è di alta qualità, di nome lavalan®, è fatto per l'80% di pura lana e 20% di PLA, un biopolimero di amido di mais. Il materiale è stato testato e secondo lo Standard Oeko-Tex®100 classe 1 (bambini). È al 100% biodegradabile, mantiene la sua forma, è traspirante, igienico, lavabile a 40°C, in più fornisce un comfort piacevole garantendo un sonno sano e naturale.

80% laine, 20% Ingeo™
Naturel - confortable - lavable

La laine polaire lavalan® est composée à 80% de pure laine vierge et de 20% en PLA, un biopolymère qui est un dérivé de l'amidon du maïs. Ce matériau a été testé selon les critères stricts de l'Oeko-Tex® 100, classe 1 (pour les bébés et les tout-petits). Il est 100% biodégradable, stable, respirant, hygiénique et surtout lavable à 40 degrés. Il procure un repos sain et naturel avec un excellent confort.

PoPoLiNi® Swim Nappy

- well-proven for beach and pool. The incorporated mesh catches „heavy accidents“ and the adjustable push buttons to open on both sides are ideal when putting nappy on and off. The material has been tested according to Oeko-Tex® Standard 100 class 1 (for babies and toddlers) and provides UV 50+ protection.

PoPoLiNi® Badewindel

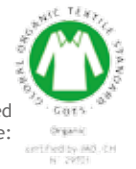

- seit langem bewährt für Strand und Schwimmbad. Das eingearbeitete Netz fängt gröbere Verschmutzungen auf und die seitlich zu öffnenden, verstellbaren Druckknöpfe sind ideal beim An- und Ausziehen. Das Material ist mit dem UV 50 + Schutz sowie Oeko-Tex® Standard 100 Klasse 1 (für Babys und Kleinkinder) ausgestattet.

PoPoLiNi® Pannolini Da Acqua

- articolo ben collaudato adatto sia per la spiaggia che per la piscina. La rete interna „cattura-pupù“ e gli automatici per l'apertura e regolazione laterale della taglia, sono la soluzione ideale per lasciare il bambino senza pannolino. Il tessuto é testato secondo Oeko-Tex® Standard 100 classe 1 (tessile per bambini) e fornisce una protezione solare UV 50+.

Couches De Bains PoPoLiNi®

sont depuis longtemps les produits préférés pour la plage et la piscine. Elles sont dotées d'un filet de sécurité pour les « gros accidents » et de pressions sur chaque côté pour une ouverture et une fermeture plus aisée. Le matériau est traité anti-UV avec une protection maximale UPF 50+ et Oeko-Tex® Standard 100 classe 1 certifié (pour les bébés et les tout-petits).

Wool Fleece: 100% Wool

controlled biologically animal
breeding GOTS

Sheep wool has always been appreciated for its natural thermo-regulating effect. Produced according to GOTS guidelines, it guarantees both a fair, low-emission production and animal welfare.

Wollvlies: 100% kbT Wolle

GOTS

Schafwolle wird seit jeher für ihre natürliche thermoregulierende Wirkung geschätzt. Nach den GOTS-Richtlinien hergestellt, wird sowohl eine faire, schadstoffarme Produktion als auch eine artgerechte Tierhaltung (kbT) garantiert.

Pile Di Lana: 100% lana organica

GOTS

La lana di pecora è apprezzata per il suo effetto di termoregolazione naturale da sempre. La nostra 100% lana organica in pile viene prodotta secondo le regole dello standard GOTS. In questo modo siamo in grado di garantire una produzione equosolidale e priva di sostanze inquinanti.

Polaire En Laine : 100% laine élevage biologique contrôlé

GOTS

La laine de mouton est particulièrement appréciée pour ces qualités naturelles de thermorégulation. Elle est produite selon la réglementation GOTS. Il s'agit d'une production équitable, avec un faible impact sur l'environnement et la prise en considération du bien-être des animaux.

EN Our PoPoLiNi® lambskin comes from Tyrolean sheep and is produced in an Austrian family establishment. In this process, medicinal tanning is used, in which heavy metals, azo, formaldehyde and pentachlorophenol are dispensed with.

DE Unser PoPoLiNi®-Lammfell stammt von Tiroler Schafen und wird in einem österreichischen Familienbetrieb hergestellt. Dabei kommt die Medizinalgerbung zum Einsatz, bei der auf Schwermetalle, Azo, Formaldehyd und Pentachlorphenol verzichtet wird.

IT La nostra pelle di agnello PoPoLiNi® proviene da pecore tirolesi ed viene prodotta in una azienda austriaca a conduzione familiare. Viene prodotta con concia medica, senza l'utilizzo di metalli pesanti, azo, formaldeide e/o pentachlorofenolo.

FR Notre PoPoLiNi® peau d'agneau provient de moutons tyroliens et est produit dans une entreprise familiale autrichienne. Elle est produite avec le bronzage médical, sans l'utilisation de métaux lourds, des colorants azoïques, du formaldéhyde et / ou du pentachlorophénol.

Care Instruction Pflegehinweise

Cura & Lavaggio Lange & Entretien

EN

1. Wash nappies before first use. The maximum absorbency is reached only after 3-4 washings. Close the Velcro before washing to avoid other laundry get tangled into the hooks.
2. Make sure the nappy is carefully covered by the outer cover (PopoWrap™ or Vento™) to accomplish accurate water protection.
3. Change nappies during the day every 3-4 hours. If needed use additional liners to increase absorbency. If the cover is not holding back the wetness, even though a 2nd liner was used, you might need the next (larger) size of covers.
4. Always use a flushable liner (Popli) as a poo catcher.
5. Collect wet nappies in a pail but not longer than 2 days (danger of mould!)
6. Nappies can be washed at 95 °C (195 °F). To save energy we recommend washing them with your normal hot wash at 60 °C (140 °F). Please prefer "sensitive" and ecological washing detergents - you will protect your baby, your laundry and the environment. Nappies become softer when you add half a cap of decalcifier (070301-00/00, p.58) to the last washing cycle. Spin the nappies at 1000 r.p.m. Never use conditioners!
7. Hard stains can be removed by applying gall soap (070299-00/00, p.58) or stain remover (070280-00/00 p.58). Let it operate before washing. Light stains will be removed when gall soap is added to the washing powder. (Dosage: one screw cup / 30ml for a complete machine load.)
8. Use the tumble-dryer at moderate temperatures. Bear in mind, that heavy use of the dryer might cause untimely wear of the material.
9. Covers need not be washed after every changing; in most cases a cold rinse is sufficient. Wash them once a week in the machine at 60 °C (140 FH). Never use bleaching detergents. Important: tumble-drying, wringing or drying on the radiator might damage the coating.
10. After long-term use covers lose their water resistance in the seam areas. The seams can be reconditioned by applying some wool wax, pure lanolin (070407-00/00, p.58). Apply with cloth directly on the seam and warm up the area gently with a hair dryer. Our nappies have been designed carefully to last an average of 200 washing cycles. In compliance under our care instructions, experience shows, that you can use our PoPoLiNi®-diapers (diaper amount of at least 20 pieces) about 200 washes long.

1. Laver les couches 4 à 5 fois avant le premier usage afin qu'elles atteignent leur capacité d'absorption optimale. Veillez à fermer les velcros au préalable afin d'éviter que les couches ne s'attachent entres elles lors du lavage.
2. Il est nécessaire d'utiliser une culotte de protection imperméable au-dessus de la couche lavable pour garantir une absolue étanchéité.
3. Changer la couche de votre enfant toutes les 3 à 4 heures pendant la journée. Pensez à ajouter un insert absorbant supplémentaire lorsque la diurèse deviendra plus importante. Lorsque la culotte imperméable ne permet plus de contenir la totalité du liquide, malgré l'insert absorbant supplémentaire, il sera donc nécessaire d'opter pour la taille supérieure.
4. Veuillez toujours utiliser une feuille de protection pour jeter l'ensemble des besoins dans les toilettes.
5. Vous pouvez conserver les couches sales dans un seau fermé avec son couvercle au maximum 48 heures avant lavages pour éviter le risque de moisissures.
6. Les couches peuvent être lavées à 95 degrés, mais nous vous recommandons de les laver à 60 degrés avec une lessive écologique pour protéger la peau de bébé, la vôtre et l'environnement. Veuillez ne pas utiliser d'adoucissant. Vous pouvez ajouter, dans le bac à rinçage, un demi-bouillon d'anticalcaire pour les rendre plus douces (070301-00/00, p.58). Nous recommandons un essorage maximal à 1000 tours/min.
7. Pour les tâches les plus résistantes, veuillez les frotter avec un savon de fiel (070299-00/00, p.58) ou spray détachant (070280-00/00 p.58).
8. Notez que le séchage au sèche-linge est possible mais que celui-ci n'est pas recommandé car cela pourrait réduire la durée de vie des couches lavables. Si vous procédez ainsi, veuillez donc sélectionner une température tiède.
9. Les culottes imperméables ne nécessitent pas d'être lavées après chaque utilisation car un simple rinçage à l'eau tiède suffit. Vous pouvez les laver une fois par semaine à la machine à laver avec un programme classique de 60 degrés et sans javel. Notez qu'un séchage au sèche-linge, un essorage trop rapide, ou encore de les faire sécher sur un radiateur, sont des facteurs de risques d'endommagement du revêtement extérieur des culottes imperméables.
10. Après une utilisation prolongée, notez qu'il est possible que les coutures des culottes imperméables perdent leur étanchéité. Nous vous recommandons dans ce cas d'utiliser notre cire de lanoline (070407-00/00, p.58). Appliquer celle-ci avec les doigts pour la faire pénétrer dans les coutures puis sécher à l'aide d'un sèche-cheveux. De cette manière, les couches imperméables retrouveront leur efficacité et la peau de de l'entre-jambe sera protégée avec ce baume naturel. L'expérience nous montre, qu'en respectant nos conseils d'entretiens, vous pourrez utiliser vos couches PoPoLiNi® (sur une base de 20 couches) pour environ 200 lavages.

DE

1. Windeln vor dem 1. Gebrauch waschen. Die maximale Saugfähigkeit wird nach 3-4 Waschgängen erreicht. Schließen Sie beim Waschen die Klettverschlüsse, damit sich keine Fasern im Hakenband verhängen.
 2. Achten Sie beim Wickeln unbedingt darauf, dass die Windel komplett von der Überhose bedeckt ist, um den Nässechutz zu garantieren.
 3. Wickeln Sie Ihr Baby tagsüber alle 3-4 Stunden. In der Nacht erhöht die zusätzliche Einlage die Saugfähigkeit. Ab dem 3. Lebensmonat brauchen Sie auch am Tag eine Einlage, in der Nacht und bei älteren Babys eine zweite. Wird die Überhose trotz Einlagen außen nass, benötigt Ihr Baby wahrscheinlich die nächste Überhosengröße.
 4. Verwenden Sie eine Vlieseinlage (Popli) um das „große Geschäft“ aufzufangen.
 5. Gebrauchte Windeln im Eimer nicht länger als 2 Tage sammeln!
 6. Windeln im Hauptwaschprogramm bei 60 °C waschen. Das Material ist auch bei 95 °C waschbar, allerdings beschleunigt dies den Verschleiß des Gewebes. Verwenden Sie haut- und umweltfreundliche Waschmittel, damit schonen Sie die Umwelt und Ihre Wäsche. Die Windeln werden weicher, wenn man dem letzten Spülgang eine 1/2 Kappe Entkalker (070301-00/00, S.58) beifügt. Schleudern bei max. 1000 Touren. Niemals Weichspüler verwenden!
 7. Fleckbehandlung: Hartnäckige Flecken lassen sich am besten mit Gallseife (070299-00/00, S.58) oder Fleckenspray (070280-00/00, S.58) behandeln. Dazu die Gallseife entweder direkt auf die Flecken geben, einwirken lassen und auswaschen. Oder flüssige Gallseife ohne weitere Waschmittelzugabe zur verschmutzten Wäsche in die Waschmaschine geben. Dosierung max. 30-35 ml pro Waschmaschine (Dosierkappe benutzen). Waschen wie gewohnt.
 8. Falls ein Wäschetrockner verwendet wird, sollte nur im Schongang getrocknet werden. Auch hier gilt: Stärkere Beanspruchung beschleunigt den Verschleiß des Gewebes.
 9. Überhosen müssen nicht nach jedem Wickelvorgang gewaschen werden; meist genügt eine kurze Spülung mit Wasser oder mit einem feuchten Tuch. Maschinenwäsche max. bei 60 °C und mit Waschmitteln ohne Bleichzusätze. WICHTIG: Überhose zum Trocknen nie auf den Heizkörper legen! Nicht dehnen und wringen, da das beschichtete Material sonst beschädigt werden kann.
 10. Undichte Nähte können mit Wollwachs wieder dicht gemacht werden. Dazu Wollwachs, reines Lanolin (070407-00/00, S.58) mit einem Stofftuch auf die undichte Nahtstelle auftragen und mit einem warmen Föhn einwirken lassen. Erfahrungsgemäß werden Sie, bei Einhaltung unserer Pflegehinweise, Ihre PoPoLiNi®-Windeln (bei einer Windelmenge von mindestens 20 Stück) circa 200 Wäschen lang verwenden können.
- ### IT
1. Lavare i pannolini prima dell'uso. Le fibre raggiungono la massima assorbenza dopo 3 o 4 lavaggi. Chiudere gli adesivi a strappo, prima di mettere in lavatrice, per evitare che si attacchino al resto del bucato.
 2. Con i pannolini lavabili usare SEMPRE la mutandina impermeabile che deve coprire bene tutto il pannolino.
 3. Cambiare il pannolino ogni 3-4 ore. Aggiungere un panno supplementare quando aumenta la diuresi. Quando il bimbo è bagnato anche nonostante l'aggiunta di due panni supplementari, allora è tempo di passare alle mutande di taglia superiore.
 4. Aggiungere sempre un foglio raccogli feci da gettare nella toilette.
 5. Conservare i pannolini sporchi nell'apposito secchietto con il coperchio, per non più di 2 giorni (rischio di muffe), prima del lavaggio.
 6. Resistono ad un lavaggio a 95 °C, ma i classici 60 °C del vostro normale bucato sono più che sufficienti. Preferibile, sia per l'ambiente che per la pelle di tutta la famiglia, è l'utilizzo di un detersivo ecocompatibile. Non usare mai ammorbidenti, ma un tappo di anticalcare (070301-00/00, p.58) nel risciacquo. Centrifugare in lavatrice fino a mass. 1000 giri.
 7. Le macchie resistenti si rimuovono applicandovi direttamente il sapone di bile (070299-00/00, p.58) o spray macchie (070280-00/00 p.58), per un lavaggio normale aggiungerne occasionalmente una dose insieme al vostro usuale detersivo.
 8. Si può usare l'asciugatrice, non troppo calda, per conservare i pannolini più a lungo.
 9. Le mutandine impermeabili non devono essere lavate ad ogni cambio, spesso sarà sufficiente sciacquarle a freddo o pulirle con un panno umido. Possono essere lavate in lavatrice a 60 °, ma senza candeggianti. Non asciugare mai direttamente sui caloriferi e non strizzarle troppo energicamente.
 10. Con il tempo, in corrispondenza alle cuciture delle mutandine possono verificarsi delle piccole perdite. Applicando la nostra cera, 100% lanolino (070407-00/00, p.58), con le mani, nei posti critici, e riscaldando con il phon per farla penetrare, la mutandina diventerà di nuovo impermeabile. I nostri pannolini sono stati creati per supportare al minimo 200 lavaggi. Possiamo quindi garantire che se seguite i nostri consigli e vi munite dei 20 pezzi consigliati, potrete utilizzarli fino al momento dell'autonomia del vostro bambino.
